(SECRET SALE NEW YEAR'S DAY)

Getting that perfect fit or correct size is all in the gauge. My grandmother always repeated to me in sewing a garment, baste, baste, baste, then sew it up. You will save a lot of time when making a garment if you just take a little extra time and make sure you are right on gauge. Gauge, Gauge, Gauge!

**STEP 1** Read your knitting or crochet pattern instructions to determine the correct gauge for your project. Your pattern instructions will tell you how many stitches and rows per inch should be using the suggested-size knitting needles or hooks

**STEP 2** Use your project yarn and the suggested-size knitting needles or hooks to knit a 5-inch square.

**STEP 3** Pin the sample square to a flat surface, such as an ironing board or a padded tabletop. Make sure that the square is securely pinned, but not stretched.

**STEP 4** Use a plain ruler or special knitting gauge ruler to count the number of stitches and rows that fall within a 1-inch span.

**STEP 5** Check your resulting gauge against that required for your project. If the stitches and rows per inch on your sample square are fewer than required, use needles/hooks that are one size smaller. If you measure more stitches than required, use knitting needles that are one size larger. Knit another sample square with your project yarn and the new size of knitting needles determined in above

Repeat until gauge is established—it is worth the time !

## Tips from Our Customers

Evelyn—Takes leftover sock yarn and blends in with her wool when she is making a felting project. When the project is felted the sock yarn color pops out. Really cute

Ott -Raspberry Preserves used instead of Cranberry Sauce taste delectable with Turkey and Dressing

Cro-Hooking—A unique way of

obtaining a reversible scarf, blanket, placemats.

Felt a Purse with your leftover sock stash and watch the colors pop out of your purse.

Heels and Toes—Use left over sock yarn and make funky toes and heels come by and see a neat sample using this technique

*Felting A Project*—Need your project felted and don't want to mess up your laundry room. Come and see us and use the laun-

dry next door. They clean the washers after every use. The water is good and hot and you can Sip and Sew while your project is felted.

Prayer Shawls— Combine all types of yarns and knit them together to make a prayer shawl

Twisted German Cast on—Gives you a finished edge with a nice stretch. Great for sweaters and hats
